

### The Top Five reasons to protect your wood deck and siding with stain

1. Protect against cracking, warping and other water damage.
2. Prevent discoloration and fading from UV rays
3. Defend against mildew and stains
4. Maintain the long-term beauty of your deck/siding
5. Preserve the value of your investment

### Why choose Benjamin Moore's ARBORCOAT® Waterborne Exterior Stain?

1. **Outperforms** other alkyd stains on the market
2. **Lasts longer** than conventional stains, so you won't have to stain as often
3. **Unique Two-coat system** for decks that delivers a furniture-like finish
4. **Engineered** for unsurpassed protection and durability
5. **Outstanding color** using Benjamin Moore's waterborne colorant technology

Benjamin Moore stands behind their products — ensuring you get outstanding results on every job.

As an experienced professional, I understand that outstanding results come from attention to detail. That's why I focus just as much properly preparing each surface as I do on applying a smooth, even coat of stain. And for many stain projects, I recommend Benjamin Moore ARBORCOAT for its outstanding performance and durability.

## Choose a pro and get it done right

When it comes to staining your siding or deck, there are three main reasons to consider hiring a professional.

**Preparation** - A pro thoroughly prepares each surface so it is ready to accept a stain

**Product** - A pro is familiar with the different products available and will choose the right stain for your job.

**Application Process** - A pro uses the latest tools and techniques to achieve a furniture-like finish on your exterior wood.

## Engineered for superior durability and protection

Low VOC, super premium waterborne deck and siding stains

Outperforms the best alkyd stains on the market

Outstanding selection of colors and finishes
