SWIMMING POOL PAINT

For Residential and Commercial In-Ground Pools

Insl-X Swimming Pool Paint

Insl-X® Swimming Pool Paints provide a durable coating that resists chemicals and cleaning agents as well as various weather conditions. Offered in a variety of ready-made colors, this line of premium products will satisfy almost any pool painting need.

Waterborne Swimming Pool Paint

A ready-to-use acrylic emulsion paint that can be applied over most types of pool coatings in good condition as well as bare concrete or plaster surfaces.

Key Features

- Can be applied to slightly damp surfaces
- Abrasion resistant
- Recoat in 4 to 6 hours
- Semi-gloss finish

Rubber-Based Swimming Pool Paint

A ready-to-use solvent-based paint for concrete pools that can be used over existing rubber-based pool paints. It is suitable for use with fresh, salt, or chlorinated water.

Key Features

- Provides a durable fade-resistant finish
- Resists pool chemicals and abrasion
- Recoat in 12 to 24 hours
- Satin finish

Chlorinated Swimming Pool Paint

A ready-to-use solvent-based paint that can be used over existing chlorinated rubber pool paints as well as on new concrete pools. It can be used with fresh or salt water and is also acceptable for use on chlorinated pools.

Key Features

- Chemical and abrasion resistant
- Resistant to color fade
- Recoat in 24 hours
- Semi-gloss finish

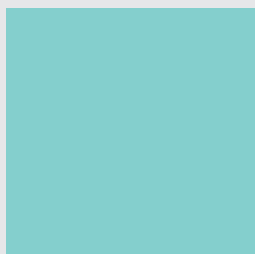

Epoxy Swimming Pool Paint

An extremely durable high-solids two-component epoxy coating that can be applied over existing epoxy coatings and is designed for use on properly prepared steel, fiberglass, concrete, marcite, and gunite pools. It is ideal for use with fresh, salt, or chlorinated water.

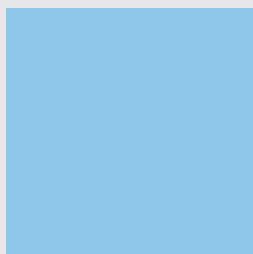

Key Features

- Offers excellent chemical and abrasion resistance
- Can be used over existing epoxy coatings
- Recoat in 3 to 72 hours*
- Semi-gloss finish

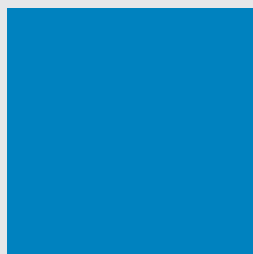

**If top coat is not applied within 72 hours, abrade the surface to ensure proper inter-coat adhesion.*
