

# SUPER SPEC<sup>®</sup> MASONRY

## INTERIOR/EXTERIOR

### HI-BUILD BLOCK FILLER K206

#### Features

- Fills small cracks and voids in concrete, cinder block, and rough masonry
- Can be used with either interior or exterior Benjamin Moore finish coats
- Can be used on exterior masonry surfaces when properly top coated with a Benjamin Moore exterior finish product

#### General Description

A full bodied and high build, latex block filler specially formulated for easy brush, roll or spray application.

#### Recommended For

Super Spec<sup>®</sup> Masonry Interior/Exterior, Hi-Build Block Filler (K206) is designed to be used as a preparatory coating to create a less porous, smoother painting surface.

#### Limitations

- Should not be used as a waterproofing sealer or as a finish coat
- Avoid application to surfaces freshly treated with silicone type water repellents
- Do not apply when air and surface temperature are below 10 °C (50 °F)

## Surface Preparation

Surfaces to be painted must be clean and free from wax, oil, grease, and water-soluble materials. Remove all loose mortar, scale, efflorescence and dust. Glossy areas should be dulled. Patch large holes and cracks with a mortar consisting of a 2 to 1 mixture of sand and Portland cement; allow to cure before painting.

**Bare masonry surfaces:** New masonry must be allowed to cure for 30 days before application of the filler. Remove all loose mortar, scale, efflorescence and dust. Surfaces must be clean and dry.

**Mildew:** Stains from mildew must be removed by cleaning with Benjamin Moore® Clean (318) prior to coating the surface.  
**Caution:** Refer to the (318) Clean technical data and material safety data sheets for instructions on its proper use and handling.

**WARNING!** If you scrape, sand, or remove old paint, you may release lead dust. **LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE.** Wear a NIOSH approved respirator to control lead exposure. Carefully clean up with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by logging onto Health Canada @ [http://www.hc-sc.gc.ca/iyh-vsv/prod/paint-peinture\\_e.html](http://www.hc-sc.gc.ca/iyh-vsv/prod/paint-peinture_e.html).

## Primer/Finish Systems

For best hiding results, tint Super Spec® Masonry Interior/Exterior, Hi-Build Block Filler (K206) to approximate shade of the finish coat.

### Rough or Pitted Masonry (including unglazed brick)

**Primer:** 1 coat Super Spec® Masonry Interior/Exterior, Hi-Build Block Filler (K206)

**Finish:** 2 coats of the appropriate Benjamin Moore interior or exterior finish.

## Application

Stir product thoroughly before use. Apply using airless spray; roller or nylon brush. Typical block filler application is to uniformly spray out the material, then back roll or brush into the surface.

**Spray, Airless:** Fluid Pressure — 2,000 to 3,000 PSI;  
Tip — .017 – .021 Orifice; Filter — none.

## Thinning/Cleaning

Super Spec® Masonry Interior/Exterior, Hi-Build Block Filler (K206) should be applied as packaged to preserve the filling, sealing, and high film-build characteristics it has been formulated to provide. If adjustment is necessary due to evaporation, thin sparingly with clean water and mix thoroughly. Do not add other paints or solvents.

**Cleanup:** Clean brushes, rollers and other painting tools in warm soapy water after use. Spray equipment should be given a final rinse with mineral spirits to prevent rusting.

**USE COMPLETELY OR DISPOSE OF PROPERLY.** Dry, empty containers may be recycled in a can recycling program. Local disposal requirements vary; consult your sanitation department or state-designated environmental agency for local disposal options.

## Environmental, Health & Safety Information

**Use only in a well ventilated area.** Keep container closed when not in use. In case of spillage, absorb with inert material and dispose of in accordance with local regulations. Wash thoroughly after handling.

**KEEP OUT OF REACH OF CHILDREN  
PROTECT FROM FREEZING**

**Refer to Material Safety Data Sheet for  
additional health and safety information.**
