REGAL® CLASSIC
PREMIUM INTERIOR 100% ACRYLIC
EGGSHELL FINISH N319

Features
- Eggshell, low lustre finish with high durability
- Painted surfaces can be washed after two weeks
- Self priming on most surfaces
- Provides a mildew resistant coating
- Easy clean-up
- Premium hide and levelling
- Easy application

General Description
A premium quality, 100% acrylic paint that combines the decorative beauty of an eggshell finish with very good durability. A beautiful and durable low lustre, eggshell finish that is easy to apply

Recommended For
Ideal for applications where a fast drying, high hiding, durable coating is required. Recommended for new or previously painted wallboard, plaster, masonry, and primed or previously painted wood or metal. Use on interior walls and ceilings.

Limitations
- Do not apply when air and surface temperatures are below 50 °F (10 °C)

Colors — Standard:
White (01) and a range of ready-mixed off-white colors

— Tint Bases:
Benjamin Moore® Color Preview® Bases 1B, 2B, 3B & 4B

— Special Colors:
Contact your Benjamin Moore representative

Certifications & Qualifications:
Master Painters Institute MPI # 52, 139 Class A (0-25) over non-combustible surfaces when tested in accordance with ASTM E-84 Anti-microbial – This product contains antimicrobial additives that inhibit the growth of mold and mildew on the surface of the paint film.

Technical Assistance
Available through your local authorized independent Benjamin Moore retailer. For the location of the retailer nearest you, call 1-866-708-9180 or visit www.benjaminmoore.com
Surface Preparation
Surfaces to be painted must be clean, dry, and free of dirt, dust, grease, oil, soap, wax, scaling paint, water soluble materials, and mildew. Remove any peeling or scaling paint and sand these areas to feather edges smooth with adjacent surfaces. Glossy areas should be dulled. Drywall surfaces must be free of sanding dust. New plaster or masonry surfaces must be allowed to cure 30 days before applying base coat. Cured plaster should be hard, have a slight sheen and maximum PH of 10; soft, porous or powdery plaster indicates improper cure. Never sand a plaster surface; knife off any protrusions and prime plaster before and after applying patching compound.

Poured or pre-cast concrete with a very smooth surface should be etched or abraded to promote adhesion, after removing all form release agents and curing compounds. Remove any powder or loose particles before priming. Wood substrates must be thoroughly dry.

Difficult Substrates: Benjamin Moore offers a variety of specialty primers for use over difficult substrates such as bleeding woods, grease stains, crayon markings, hard glossy surfaces, galvanized metal or other substrates where paint adhesion or stain suppression is a particular problem. Your Benjamin Moore retailer can recommend the right problem-solving primer for your special needs.

WARNING! If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH approved respirator to control lead exposure. Carefully clean up with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

Primer/Finish Systems
Regal® Classic Finish is self priming on most surfaces. On bare substrates two coats are required; previously painted surfaces can be finished with 1 or 2 coats. While the high quality of our products sometimes makes one-coat coverage achievable, Benjamin Moore recommends two coats of this product to achieve full color development and to maximize paint film performance. Special Note: Certain deep custom colors may require a Deep Base Primer tinted to a special prescription formula to achieve the desired color. Consult your retailar.

Wood, and Engineered Wood Products:
Primer: Regal® Classic Premium Interior Latex Primer (N216). Fresh Start® Multi-Purpose Oil Based Primer (024) or Fresh Start® Enamel Underbody Primer (217)
Finish: 1 or 2 coats Regal® Classic Premium Interior 100% Acrylic Eggshell Finish (N319)
Bleeding Woods; like Redwood or Cedar:
Primer: Fresh Start® Multi-Purpose Oil Based Primer (024), Fresh Start® Enamel Underbody Primer (217) or Fresh Start® High-Hiding All Purpose Primer (046)
Finish: 1 or 2 coats Regal® Classic Premium Interior 100% Acrylic Eggshell Finish (N319)
Drywall:
Primer/Finish: 1 or 2 coats of Regal® Classic Premium Interior 100% Acrylic Eggshell Finish (N319)
Plaster:
Primer/Finish: 1 or 2 coats of Regal® Classic Premium Interior 100% Acrylic Eggshell Finish (N319)
Rough or Pitted Masonry:
Primer: Ultra Spec® Masonry Interior/Exterior Hi-Build Block Filler (571)
Finish: 1 or 2 coats Regal® Classic Premium Interior 100% Acrylic Eggshell Finish (N319)
Smooth Poured or Pre-cast Concrete:
Primer/Finish: 1 or 2 coats of Regal® Classic Premium Interior 100% Acrylic Eggshell Finish (N319)

Application
Mixing of Paint: Stir thoroughly before and during use. Apply one or two coats. For best results, use a premium Benjamin Moore custom-blended nylon/polyester brush, premium Benjamin Moore roller, or a similar product. Apply paint generously from unpainted area into wet area. This product can also be sprayed.

Thinning / Clean Up
Conditioning with Benjamin Moore® 518 Extender may be necessary under certain conditions to adjust open time or spray characteristics. The chart below is for general guidance.

<table>
<thead>
<tr>
<th>Condition</th>
<th>Primer: nylon / polyester</th>
<th>Primer: nylon / polyester</th>
<th>Roller: premium quality nylon / polyester</th>
<th>Spray: airless pressure: 1,500 - 2500 psi and tip: 0.013 - 0.017</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mild conditions (Humid (RH&gt; 50%) with no direct sunlight &amp; with little to no wind)</td>
<td>Dry (RH&lt;50%), in direct sunlight, or windy conditions</td>
<td>Add 518 Extender or water: Max of 8 fl. oz. to a gallon of paint</td>
<td>Never add other paints or solvents.</td>
<td></td>
</tr>
</tbody>
</table>

Wash painting tools in warm soapy water immediately after use. Spray equipment should be given a final rinse with mineral spirits to prevent rusting.

USE COMPLETELY OR DISPOSE OF PROPERLY. Dry empty containers may be recycled in a can recycling program. Local disposal requirements vary, consult your sanitation department or state-designated environmental agency on disposal options.

Environmental, Health & Safety Information
Use only with adequate ventilation. Do not breathe spray mist or sanding dust. Ensure fresh air entry during application and drying. Avoid contact with eyes and prolonged or repeated contact with skin. Avoid exposure to dust and spray mist by wearing a NIOSH approved respirator during application, sanding and clean up. Follow respirator manufacturer’s directions for respirator use. Close container after each use. Wash thoroughly after handling.

WARNING Cancer and Reproductive Harm– www.P65Warnings.ca.gov

FIRST AID: In case of eye contact, flush immediately with plenty of water for at least 15 minutes; for skin, wash thoroughly with soap and water. If symptoms persist, seek medical attention. If you experience difficulty breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical attention immediately.

IN CASE OF SPILL – Absorb with inert material and dispose of as specified under “Clean Up”.

KEEP OUT OF REACH OF CHILDREN
PROTECT FROM FREEZING

Refer to Safety Data Sheet for additional health and safety information.
