**Features**

- Good hide
- Good touch up
- Spatter resistant
- Quick dry
- Low odour
- Easy application
- Eligible for LEED® v4 Low Emitting Products credit

**General Description**

A professional-quality interior waterborne low sheen finish tinted with Benjamin Moore's proprietary zero VOC colorants. The product is eligible for LEED® credit and is MPI approved.

**Recommended For**

Interior wall and ceiling surfaces in commercial and institutional environments where a Low Sheen finish is desired. For new or previously painted interior wallboard, masonry, and primed or previously painted plaster, wood or metal.

**Limitations**

- Do not apply when air and surface temperatures are below 10 °C (50 °F)

### Surface Preparation

Surfaces to be painted must be clean, dry, and free of dirt, dust, grease, oil, soap, wax, scaling paint, water soluble materials, and mildew. Remove any peeling or scaling paint and sand these areas to feather edges smooth with adjacent surfaces. Glossy areas should be dulled. Drywall surfaces must be free of sanding dust.

New plaster or masonry surfaces must be allowed to cure 30 days before applying base coat. Cured plaster should be hard, have a slight sheen and maximum pH of 10; soft, porous or powdery plaster indicates improper cure. Never sand a plaster surface; knife off any protrusions and prime plaster before and after applying patching compound. Poured or pre-cast concrete with a very smooth surface should be etched or abraded to promote adhesion, after removing all form release agents and curing compounds. Remove any powder or loose particles before priming. Wood substrates must be thoroughly dry.

**Difficult Substrates:** Benjamin Moore® offers a variety of specialty primers for use over difficult substrates such as bleeding woods, grease stains, crayon markings, hard glossy surfaces, galvanized metal or other substrates where paint adhesion or stain suppression is a particular problem. Your Benjamin Moore® retailer can recommend the right problem-solving primer for your special needs.

**WARNING!** If you scrape, sand, or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by logging onto Health Canada @ https://www.canada.ca/en/health-canada/services/environmental-workplace-health/environmental-contaminants/lead/lead-information-package-some-commonly-asked-questions-about-lead-human-health.html

### Primer/Finish Systems

New surfaces should be fully primed, and previously painted surfaces may be primed or spot primed as necessary. For best hiding results, tint the primer to the approximate shade of the finish coat, especially when a significant colour change is desired. Consult your dealer.

**Wood, and Engineered Wood Products:**

**Primer:** Super Hide™ Zero VOC Interior Primer (K354) or Ultra Spec® 500 Interior Latex Primer (K534)

**Finish:**

1. or 2 coats Super Hide™ Zero VOC Interior Low Sheen (K356)

**Bleeding Type Woods, (Redwood and Cedar):**

**Primer:** Fresh Start® Multi-Purpose Oil Based Primer (F024)

**Finish:**

1. or 2 coats Super Hide™ Zero VOC Interior Low Sheen (K356)

**Drywall:**

**Primer:** Super Hide™ Zero VOC Interior Primer (K354) or Ultra Spec® 500 Interior Latex Primer (K534)

**Finish:**

1. or 2 coats Super Hide™ Zero VOC Interior Low Sheen (K356)

**Plaster:**

**Primer:**

Fresh Start® Multi-Purpose Late Primer (F023) or Fresh Start® High-Hiding All Purpose Primer (K046)

**Finish:**

1. or 2 coats Super Hide™ Zero VOC Interior Low Sheen (K356)

**Rough or Pitted Masonry:**

**Primer:** Ultra Spec® Masonry Interior/Exterior Hi-Build Block Filler (K571)

**Finish:**

1. or 2 coats Super Hide™ Zero VOC Interior Low Sheen (K356)

**Smooth Poured or Precast Concrete:**

**Primer:**

Fresh Start® Multi-Purpose Latex Primer (F023)

**Finish:**

1. or 2 coats Super Hide™ Zero VOC Interior Low Sheen (K356)

**Ferrous Metal (Steel and Iron):**

**Primer:**

Ultra Spec® HP Acrylic Metal Primer (FP04) or Super Spec HP® Alkyd Metal Primer (KP06)

**Finish:**

1. or 2 coats Super Hide™ Zero VOC Interior Low Sheen (K356)

### Environmental Health & Safety Information

Use only in a well ventilated area. Keep container closed when not in use. In case of spillage, absorb with inert material and dispose of in accordance with local regulations. Wash thoroughly after handling.

**KEEP OUT OF REACH OF CHILDREN**

**PROTECT FROM FREEZING**

Refer to Safety Data Sheet for additional health and safety information.

### Application

Stir thoroughly before use. Apply one or two coats. For best results, use a Benjamin Moore® Professional custom-blended nylon/polyester brush, Professional roller, or a similar product. This product can also be sprayed.

### Conditioning with Benjamin Moore® K518 Extender may be necessary under certain conditions to adjust open time or spray characteristics. The chart below is for general guidance.
