Features
- Does not yellow like solvent based varnishes & polyurethanes.
- Quick dry and re-coat.
- Soap and water clean up.
- Tintable to many decorative shades.

General Description
A premium quality product that combines the attributes of polyurethane and acrylic to produce a clear, durable, non-yellowing finish. Dries quickly and with low odor. Finished surface provides high resistance to abrasion and protection against alcohol, water, and most household chemicals and stains.

Recommended For
Applicable for new or previously painted, stained, or varnished interior wood surfaces including floors. Can also be used as a protective coating over previously painted surfaces.

Limitations
- Do not apply when air and surface temperatures are below 50° F (10° C)

Benwood® Stays Clear® Acrylic Polyurethane High Gloss 422

Surface Preparation
Surfaces to be finished must be free from wax, dirt, grease, dust, and other contaminants. Glossy surfaces must be dulled with sandpaper or synthetic steel wool. **Do not use steel wool loose fibers will cause rusting in the finish coat.** Open grained woods such as oak or mahogany that will be subject to water or liquid spills should be filled with Benwood® Interior Wood Finishes Wood Grain Filler (238) according to label instructions. Apply Benwood® Interior Wood Finishes Penetrating Stain (234) as needed.

Note: The application of this or any clear acrylic finish over fresh alkyd coatings may cause yellowing of the basecoat.

**WARNING!** If you scrape, sand or remove old paint, you may release lead dust. **LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE.** Wear a NIOSH-approved respirator to control lead exposure. Carefully clean up with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

**Environmental, Health & Safety Information**
CAUTION! Contains glycol ethers VAPOR HARMFUL
Contains n-methyl pyrrolidone which CAN BE ABSORBED THROUGH THE SKIN. MAY CAUSE REPRODUCTIVE ORGAN DAMAGE.

This waterborne system contains less than 5% Glycol Ethers. Use adequate ventilation during application and drying. Do not breathe vapors or spray mist. Do not get in eyes or on skin. Wear eye protection and solvent impermeable gloves during application or sanding. Close container after each use. Wash thoroughly after handling. A dust/particulate respirator approved by NIOSH should be worn when sanding or spraying.

**WARNING:** This product contains a chemical known to the state of California to cause cancer and birth defects, or other reproductive harm.

**FIRST AID:** If affected by inhalation of vapors or spray mist, remove to fresh air. In case of eye contact, flush immediately with plenty of water for at least 15 minutes and call physician; for skin, wash thoroughly with soap and water. If swallowed, do not induce vomiting. Get medical attention immediately.

**IN CASE OF: FIRE — Use foam, CO2, dry chemical, or water fog.**
**SPIG — Absorb with inert material and dispose of as specified under “Thinning/Clean Up”.

KEEP OUT OF REACH OF CHILDREN PROTECT FROM FREEZING
