NATURA®
PREMIUM INTERIOR PRIMER
511

Features
- Zero VOC
- Quick drying
- Low odor
- Spatter-resistant
- Excellent hide

Recommended For
Priming and sealing new or previously painted drywall, composition board, wood, concrete, plaster, and other porous surfaces when a low odor, zero VOC primer/finish system is desired.

General Description
A low odor, zero VOC, 100% acrylic interior latex primer sealer. With spatter resistant properties. Ideally suited for residential applications and is Certified asthma & allergy friendly®. Always use Natura® Premium Interior Primer (511) as a first coat when a low-odor, zero VOC primer/finish system is required.

Limitations
- Do not paint when temperature of air and surface is below 50 °F (10 °C)

Recommended For
Priming and sealing new or previously painted drywall, composition board, wood, concrete, plaster, and other porous surfaces when a low odor, zero VOC primer/finish system is desired.

Certifications & Qualifications:
VOC compliant in all regulated areas
Zero VOC
Zero Emissions
Class A (0-25) over non-combustible surfaces when tested in accordance with ASTM E-84
Master Painters Institute MPI # 50, 50 X-Green™, 149, 149 X-Green™

Technical Data
Vehicle Type 100% Acrylic Latex
Pigment Type Titanium Dioxide
Volume Solids 29%
Coverage per Gallon at Recommended Film Thickness 375 – 425 Sq. Ft.
Recommended Film Thickness
- Wet 4.0 mils
- Dry 1.2 mils

Depending on surface texture and porosity. Be sure to estimate the right amount of paint for the job. This will ensure color uniformity and minimize the disposal of excess paint.

Dry Time @ 77 °F (25 °C) @ 50% RH
- To Touch 30 Minutes
- To Recoat 1 – 2 Hours

High humidity and cool temperatures will result in longer dry, recoat and service times.

Dries By Evaporation, Coalescence
Viscosity 98 ± 3 KU
Flash Point None
Gloss / Sheen Low Sheen (10 - 18 @ 85˚)
Surface Temperature at Application
- Min. 50 °F
- Max. 90 °F

Thin With See Chart
Clean Up Thinner Clean Water
Weight Per Gallon 10.0 lbs.

Storage Temperature
- Min. 40 °F
- Max. 90 °F

Volatile Organic Compounds (VOC)
0 Grams / Liter 0 LBS / Gallon

Zero VOC post tint (any base and any color)

Colors — Standard:
White (00)
(May be tinted with up to 2.0 fl. oz. of Gennex® Waterborne Colorants per gallon)

— Tint Bases:
Gennex® Waterborne Colorant Base: Deep Base (04)

— Special Colors:

Natura® Premium Interior Primer 511

Surface Preparation
Surfaces to be painted must be clean, dry, and free of dirt, dust, grease, oil, soap, wax, scaling paint, water soluble materials and mildew. Remove any peeling or scaling paint and sand these areas to feather edges smooth with adjacent surfaces. Glossy areas should be dulled. Drywall surfaces must be free of sanding dust.

New plaster or masonry surfaces must be allowed to cure (30 days) before applying base coat. Cured plaster should be hard, have a slight sheen and maximum pH of 10; soft, porous or powdery plaster indicates improper cure. Never sand a plaster surface; knife off any protrusions and prime plaster before and after applying patching compound.

Poured or pre-cast concrete with a very smooth surface should be etched or abraded to promote adhesion, after removing all form release agents and curing compounds. Remove any powder or loose particles before priming.

Difficult Substrates: Benjamin Moore offers a variety of specialty primers for use over difficult substrates such as plaster, bleeding woods, grease stains, crayon markings, hard glossy surfaces, galvanized metal or other substrates where paint adhesion or stain suppression is a particular problem. Your Benjamin Moore® retailer can recommend the right problem-solving primer for your special needs.

WARNING! If you scrape, sand, or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Carefully clean up with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

Primer/Finish Systems
Natura® Premium Interior Primer (511) is the preferred primer in most situations where an environmental friendly product is required. New surfaces should be fully primed, and previously painted surfaces may be primed or spot primed as necessary. For best hiding results, tint the primer to the approximate shade of the finish coat, especially when a significant color change is desired. Special Note: Certain custom colors require a Deep Color Base Primer tinted to a special prescription formula to achieve the desired color. Consult your retailer.

Wood, and engineered wood products:
Primer: Natura® Premium Interior Primer (511)
Finish: 1 or 2 coats of the Natura® Premium Interior finish of your choice

For bleeding woods such as cedar and redwood:
Primer: Fresh Start® High-Hiding All Purpose Primer (046) or Fresh Start® Multi-Purpose Oil Based Primer (024)
Finish: 1 or 2 coats of the Natura® Premium Interior finish of your choice

Drywall:
Primer: Natura® Premium Interior Primer (511)
Finish: 1 or 2 coats of the Natura® Premium Interior finish of your choice

Plaster:
Primer: Natura® Premium Interior Primer (511)
Finish: 1 or 2 coats of the Natura® Premium Interior finish of your choice

Rough or Pitted Masonry:
Primer: Ultra Spec® Masonry Interior/Exterior Hi-Build Block Filler (571)
Finish: 1 or 2 coats of the Natura® Premium Interior finish of your choice

Smooth Poured or Pre-cast Concrete:
Primer: Ultra Spec® Masonry Interior / Exterior 100% Acrylic Masonry Sealer (608) or Fresh Start® Multi-Purpose Latex Primer (023)
Finish: 1 or 2 coats of the Natura® Premium Interior finish of your choice

Ferrous Metal (Steel and Iron):
Primer: Ultra Spec® HP Acrylic Metal Primer (HP04) or Super Spec HP® Alkyd Metal Primer (P06)
Finish: 1 or 2 coats of the Natura® Premium Interior finish of your choice

Non-Ferrous Metal (galvanized & aluminum):
All new metal surfaces must be thoroughly cleaned with Corotech® Oil & Grease Emulsifier (V600) to remove contaminants. New shiny non-ferrous metal surfaces that will be subject to abrasion should be dulled with very fine sandpaper or a synthetic steel wool pad to promote adhesion.

Primer: Ultra Spec® HP Acrylic Metal Primer (HP04) or Natura® Premium Interior Primer (511)
Finish: 1 or 2 coats of the Natura® Premium Interior finish of your choice

Repaint, All Substrates: Prime bare areas with the primer recommended for the substrate above.

Application
Stir thoroughly before and during use. Apply one or two coats. For best results, use a premium Benjamin Moore® custom-blended nylon/polyester brush, premium Benjamin Moore® roller, or a similar product. Apply paint generously from unpainted area into wet area. Ensure fresh air entry during application and drying

This product can also be sprayed. See Chart below:

Clean up: Wash painting tools in warm soapy water immediately after use. Spray equipment should be given a final rinse with mineral spirits to prevent rusting.

USE COMPLETELY OR DISPOSE OF PROPERLY. Dry, empty containers may be recycled in a can recycling program. Local disposal requirements vary; consult your sanitation department or state-designated environment-mental agency on disposal options.

Environmental Health & Safety Information
Use only with adequate ventilation. Ensure fresh air entry during application and drying. Do not breathe spray mist or sanding dust. Avoid exposure to dust and spray mist by wearing a NIOSH approved respirator during application, sanding and clean up. Follow respirator manufacturer’s directions for respirator use. Avoid contact with eyes and prolonged or repeated contact with skin. Close container after each use. Wash thoroughly after handling.

FIRST AID: In case of eye contact, flush immediately with plenty of water for at least 15 minutes; for skin, wash thoroughly with soap and water. If symptoms persist, seek medical attention. If you experience difficulty breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical attention immediately.

WARNING: This product contains isothiazolinone compounds at levels of <0.1%. These substances are biocides commonly found in most paints and a variety of personal care products as a preservative. Certain individuals may be sensitive or allergic to these substances, even at low levels.

IN CASE OF SPILL – Absorb with inert material and dispose of as specified under “Clean Up”.

KEEP OUT OF REACH OF CHILDREN.

PROTECT FROM FREEZING.

Refer to Safety Data Sheet for additional health and safety information.
