### Features

- Zero VOC
- Low odour
- Excellent hiding
- Great touch up
- Spatter resistant
- Decorative and uniform low sheen eggshell finish
- Washable
- Quick dry
- Easy application
- Soap and water clean up
- Superior flow and levelling
- Qualifies for LEED® v4 credit

### General Description

A professional-quality interior waterborne low sheen eggshell finish based on a proprietary cross-linking acrylic resin that tints on the Gennex® zero VOC colorant system. This waterborne interior Low Sheen Eggshell Finish provides the washability of a semi-gloss in a softer sheen. The product qualifies for LEED® v4 credit and passes the most stringent environmental standards in any colour. Because they tint on our Gennex® waterborne colorant system all Ultra Spec® 500 finishes are available in any colour without an increase in VOC.

### Recommended For

Interior wall and ceiling surfaces in commercial and institutional environments where a washable Low Sheen Eggshell Finish is desired. For use on primed or previously painted drywall, plaster, wood, metal and wallpapered surfaces.

### Limitations

- Do not apply when air and surface temperatures are below 10 °C (50 °F)

---

Benjamin Moore & Co., Ltd. 8775 Keele St., Concord, ON L4K 2N1 1-800-361-5898 www.benjaminmoore.ca M72 K537 CE 112219
Surface Preparation
Surfaces to be painted must be clean, dry, and free of dirt, dust, grease, oil, soap, wax, scaling paint, water-soluble materials, and mildew. Remove any peeling or scaling paint and sand these areas to feather edges smooth with adjacent surfaces. Glossy areas should be dulled. Drywall surfaces must be free of sanding dust.

New plaster or masonry surfaces must be allowed to cure 30 days before applying base coat. Cured plaster should be hard, have a slight sheen and maximum PH of 10; soft, porous or powdery plaster indicates improper cure. Never sand a plaster surface; knife off any protrusions and prime plaster before and after applying patching compound. Poured or pre-cast concrete with a very smooth surface should be etched or abraded to promote adhesion, after removing all form release agents and curing compounds. Remove any powder or loose particles before priming. Wood substrates must be thoroughly dry.

Difficult Substrates: Benjamin Moore offers a variety of specialty primers for use over difficult substrates such as bleeding woods, grease stains, crayon markings, hard glossy surfaces, galvanized metal or other substrates where paint adhesion or stain suppression is a particular problem. Your Benjamin Moore® retailer can recommend the right problem-solving primer for your special needs.

WARNING! If you scrape, sand, or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by logging onto Health Canada @

Primer/Finish Systems
New surfaces should be fully primed, and previously painted surfaces may be primed or spot primed as necessary. For best hiding results, tint the primer to the approximate shade of the finish coat, especially when a significant colour change is desired. Special Note: Certain custom colours require a Deep Colour Base Primer tinted to a special prescription formula to achieve the desired colour. Consult your retailer.

Wood and Engineered Wood Products
Primer: Ultra Spec® 500 Interior Primer (K534) or Fresh Start® All-Purpose Alkyd Primer (FP04)
Finish: 1 or 2 coats Ultra Spec® 500 Interior Low Sheen Eggshell Finish (K537)

Drywall
Primer: Ultra Spec® 500 Interior Primer (K534)
Finish: 1 or 2 coats Ultra Spec® 500 Interior Low Sheen Eggshell Finish (K537)

Plaster (Cured)
Primer: Ultra Spec® 500 Interior Primer (K534) or Fresh Start® Multi-Purpose Latex Primer (F023)
Finish: 1 or 2 coats Ultra Spec® 500 Interior Low Sheen Eggshell Finish (K537)

Rough or Pitted Masonry
Primer: Ultra Spec® Masonry Interior/Exterior Hi-Build Block Filler (K571)
Finish: 1 or 2 coats Ultra Spec® 500 Interior Low Sheen Eggshell Finish (K537)

Smooth Poured or Precast Concrete
Primer: Ultra Spec® 500 Interior Primer (K534) or Fresh Start® Multi-Purpose Latex Primer (F023)
Finish: 1 or 2 coats Ultra Spec® 500 Interior Low Sheen Eggshell Finish (K537)

Ferrous Metal (Steel and Iron)
Primer: Ultra Spec® HP Acrylic Metal Primer (FP04) or Super Spec HP® Alkyd Metal Primer (KP06)
Finish: 1 or 2 coats Ultra Spec® 500 Interior Low Sheen Eggshell Finish (K537)

Non-Ferrous Metal (Galvanized & Aluminum)
All new metal surfaces must be thoroughly cleaned with Corotech® Oil & Grease Emulsifier (V600) to remove contaminants. New shiny non-ferrous metal surfaces that will be subject to abrasion should be dulled with very fine sandpaper or a synthetic steel wool pad to promote adhesion.

Primer: Ultra Spec® HP Acrylic Metal Primer (FP04)
Finish: 1 or 2 coats Ultra Spec® 500 Interior Low Sheen Eggshell Finish (K537)

Repaint, All Substrates: Prime bare areas with the primer recommended for the substrate above.

Application
Stir thoroughly before use. Apply one or two coats. For best results, use a Benjamin Moore® Professional custom-blended nylon/ polyester brush, Benjamin Moore® Professional roller, or a similar product. This product can also be sprayed.

Thinning/Clean Up

| Conditioning with Benjamin Moore® K518 Extender may be necessary under certain conditions to adjust open time or spray characteristics. The chart below is for general guidance |

<table>
<thead>
<tr>
<th>Mild conditions</th>
<th>Severe conditions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Brush: Nylon / Polyester</td>
<td>Brush: Premium Quality 10 mm roller cover</td>
</tr>
<tr>
<td>Humid (RH&gt;50 %) with no direct sunlight &amp; with little to no wind</td>
<td>Dry (RH&gt;50 %), in direct sunlight, or windy conditions</td>
</tr>
<tr>
<td>No thinning necessary</td>
<td>Add K518 Extender or water:</td>
</tr>
<tr>
<td>Max of 236 ml to a 3.79 L of paint</td>
<td>Never add other paints or solvents.</td>
</tr>
</tbody>
</table>

Thinning is unnecessary, but if required to obtain desired application properties, a small amount of clean water may be added. Never add other paints or solvents.

Clean Up: Use soap and water. Spray equipment should be given a final rinse with mineral spirits to prevent corrosion.

Environmental Health & Safety Information
Use only in a well ventilated area. Keep container closed when not in use. In case of spillage, absorb with inert material and dispose of in accordance with local regulations. Wash thoroughly after handling.

KEEP OUT OF REACH OF CHILDREN
PROTECT FROM FREEZING

Refer to Safety Data Sheet for additional health and safety information.
