QUICKSTAIN LACQUER WIPING STAIN
1LS.12XX

Features
- 17 Pre-Mixed Popular Colors
- Tint Base For Custom Colors
- Ready To Use Formulations
- Uniform Penetration
- Helps Against Blotching
- Superior Grain Definition
- Resists Fading and Bleeding
- Fast Drying For Lacquers

General Description
Lenmar’s® QuickStain Lacquer Wiping Stains have been uniquely designed for the professional woodworker in the Furniture & Cabinet Industry and are formulated strictly for use in shop applications only. The major benefits of this stain line include: 17 of the most popular pre-mixed stain colors, a natural / clear tint base for custom tinting with 144 colorants (or another approved system), capability to intermix different colors to create new stains, ease of application for uniform penetration, superior grain definition, and resistance to bleeding and fading. Do not apply multiple coats of stain, remove all excess stain, and allow to thoroughly dry before top coating.

Recommended For
Kitchen Cabinets, Furniture, Window and Door Trim, Baseboards and Molding, Interior Doors and Hand Rails.

Limitations
- Not for use on Floors.

QuickStain Lacquer Wiping Stain 1LS.12XX

WARNING! If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Carefully clean up with a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

Application
Over properly prepared interior wood surfaces, apply only one full coat of QuickStain Lacquer Wiping Stain by spray, with a natural bristle brush or with a clean lint-free cloth. Remove all excess stain within 5 minutes after application. When dry (usually 10-15 minutes), continue with sealer and topcoat system in accordance with their Product Data Sheets. For spray-no-wipe applications, reduce a minimum of 2:1 with Lacquer Thinner, n-Butyl Acetate, or Acetone (STAY IN COMPLIANCE WITH LOCAL REGULATIONS) (Two parts thinner to one part stain). Apply in light coats, 1–2 wet mils. Check adhesion before proceeding with this type of application (should be used for light colors only). See characteristics for recommended dry times.

Specifications
Moisture content of wood should be no higher than 9%. Wood must be free of all surface contaminants. Using 120-150 grit sandpaper, sand with the grain and remove all dust. Thoroughly mix stain and intermix multiple containers of same color. Test color before proceeding. Color intensity may vary due to wood species, surface preparation, and method of application. Submerse stain soaked rags in water to avoid spontaneous combustion. Read label and MSDS for additional information and warnings.

Cleanup
Clean up with 1A.406 or 1A.519 Lacquer Thinner.

IN CASE OF FIRE
– Use foam, CO2, dry chemical or water fog.

KEEP OUT OF REACH OF CHILDREN
This product is intended for Shop or OEM application only.

READ ALL DIRECTIONS BEFORE USE. UNDERSTAND ALL DANGERS WITH THIS PRODUCT PRIOR TO USE.

Refer to Material Safety Data Sheet for additional health and safety information.
