**MEGAVAR®**

**WATER WHITE CONVERSION VARNISH**

1M.430X (1A.622 CATALYST)

### Features
- Water White Formulation
- Ready To Spray Viscosity
- Self-Sealing
- Resists Moisture
- Resists Chemicals
- 8 – 12 Hour Pot Life

### General Description
Lenmar® 1M.430X MegaVar® Series of water white conversion varnishes are designed for the professional woodworker who demands maximum performance and clarity in a finish. Once catalyzed, this fast drying conversion varnish offers superior protection against moisture and household chemicals. The formula builds to a beautiful and exceptionally durable film that will fully cure within 2 – 5 days after final coat. The conversion varnish requires the addition of 4 ounces of 1A.622 Catalyst (3%) per single gallon. Only catalyze enough varnish that will be applied in an 8 – 12 hour period. This conversion varnish is recommended as a self-sealing finish over properly prepared interior wood surfaces. For those application requirements where higher solids is desired, use Lenmar® MegaVar® Plus, 1M.630x series conversion varnishes.

### Recommended For
Wood Floors, Bar Tops, Office Furniture, Displays & Fixtures, Kitchen Cabinets, Bathroom Vanities, Commercial Cabinets

### Limitations
- Entire system not to exceed 5 mils dry.

**MegaVar® Water White Conversion Varnish 1M.430X**

**WARNING!** If you scrape sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Carefully clean up with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead

**Application**

ENTIRE SYSTEM SHOULD NOT EXCEED MORE THAN 5 MILS DRY. LENMAR PRODUCTS ARE DESIGNED FOR INTERIOR USE, BY SPRAY APPLICATION ONLY.

The 1M.430X Series is ideally used as a self-sealing, three-coat, finish over new wood. Select the desired sheen from the 1M.430X series; shake well, add 4 ounces of 1A.622. Then apply three even coats of 3-5 mils; allow to dry, sanding between each coat for proper adhesion. If a separate sealer is desired, apply one coat of 1C.380 QD Vinyl Sealer or 1C.5300 Catalyzed Vinyl Sealer according to Label/TDS directions, let dry, and sand. Follow with 2 topcoats from the 1M.430X line.

ENTIRE SYSTEM SHOULD NOT EXCEED 5 MILS DRY.

**Specifications**

Moisture content of wood should be no higher than 9%. Wood must be free of surface contaminants. Sand wood with no finer than 150-grit sandpaper and remove all dust. Mix thoroughly; gradually add 4 oz. of 1A.622 to each gallon. Apply by spray only, at the recommended temperatures (above 68 °F). Check with equipment manufacturer for settings to achieve proper atomization. If necessary, use 1A.406/1A.114 to reduce after catalyzation. Apply a first coat of conversion varnish and let dry. Sand with 320-grit, non-stearated, silicon carbide sandpaper. Follow with no more than 2 additional coats of conversion varnish, sanding between all applications. (Sanding is required to achieve proper adhesion.) Small amounts of 1A.114 Lacquer Retarder may be used if applied during adverse weather conditions. Pot-life can be extended by addition of n-Butyl alcohol, at 2-8 oz. per gallon. Read label and SDS for additional information.

**Environmental Health & Safety Information**

**DANGER!**

- Causes skin irritation
- Causes serious eye damage
- May cause an allergic skin reaction
- May cause cancer
- May damage fertility or the unborn child
- May cause drowsiness or dizziness
- May cause damage to organs through prolonged or repeated exposure
- Highly flammable liquid and vapor

**Prevention:** Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Wash face, hands and any exposed skin thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Wear protective gloves. Do not breathe dust/fume/gas/mist/vapors/spray. Use only outdoors or in a well-ventilated area. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed. Ground/ bond container and receiving equipment. Use explosion-proof electrical/ ventilating/ lighting/ equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Keep cool.

**Response:** IF exposed or concerned: Get medical advice/ attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician. If skin irritation or rash occurs: Get medical advice/ attention. IF ON SKIN (or hair): Remove/ Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. In case of fire: Use CO2, dry chemical, or foam for extinction.

**Storage:** Store locked up. Store in a well-ventilated place. Keep container tightly closed.

**Disposal:** Dispose of contents /container to an approved waste disposal plant.

**IMPORTANT:** Described to be mixed with other components. Mixture will have hazards of all components. Before opening packages, read all warning labels. Follow all precautions.

**Clean up**

Clean up with 1A.406 Thinner or 1A.101 Acetone.

**KEEP OUT OF REACH OF CHILDREN**

FOR WOOD SUBSTRATES ONLY

For professional application on wood floors only. May be applied as an OEM or Shop Application product to wood substrates other than floors.

READ ALL DIRECTIONS BEFORE USE. UNDERSTAND ALL DANGERS WITH THIS PRODUCT PRIOR TO USE.

Refer to Safety Data Sheet for additional health and safety information.
