

QUICKSTAIN

DYE STAINS & DYE CONCENTRATES 1U.6XX

Features

- 6 Dye Concentrates To Make Any Necessary Color
- 4 Ready To Use Spray Stain Colors
- Easily Reduced
- Uniform Penetration
- Fast Drying For Lacquers

Recommended For

Kitchen Cabinets, Furniture, Window & Door Trim, Baseboards & Molding, Interior Doors & Hand Rails.

General Description

Lenmar® QuickStain Dye Stains and Concentrates have been uniquely designed for the professional woodworker in the Furniture & Cabinet Industry and are formulated strictly for use in shop applications only. The major benefits of these products include: 6 basic colors, mixable into acetone, lacquer thinner, and some solvents, and 4 ready to spray stains that can also be used as intermixable colors. These dyes can be added to sealers or topcoats to add color and depth to a finish. QuickStain concentrates should not be used without dilution into an acceptable solvent or base. These dye stains and concentrates are designed for use by spray only. Do not attempt to wipe or brush onto the substrate, and do not apply multiple coats of stain without the application of a washcoat between coats or testing the effect.

Limitations

- Do not attempt to wipe or brush onto the substrate, and do not apply multiple coats of stain without the application of a washcoat between coats or testing the effect.

Product Information

Colors — Standard:	Technical Data [◇]	Blue
Dye Concentrates:	Vehicle Type	Acetone
1U-601 Blue 1U-602 Red 1U-603 Yellow	Pigment Type	Organometallic Salts
1U-604 Orange 1U-606 Black 1U-607 Brown	Weight Solids	5%
Dye Stains:	Volume Solids	3%
1U-608 Cordovan 1U-609 Cherry	Coverage per Gallon at Recommended Film Thickness	N/A
1U-610 Oak 1U-611 Dark Walnut	Recommended Film Thickness	N/A
— Tint Bases:	Recommended Film Thickness	N/A
N/A	– Wet	N/A
— Special Colors:	– Dry	N/A
Contact your Dealer/Distributor.	Coverage calculation does not include spray loss or equipment inefficiency. Also allow for wood species, surface preparation, surface defects and porosity of substrate to affect spread rates.	
Certifications & Qualifications:	Dry Time @ 75 °F (23.8 °C) @ 50% RH	– Reduced with Acetone 1 – 2 Minutes – Reduced with Lacquer Thinner 5 – 10 Minutes
VOC compliant in all regulated areas	High humidity and cool temperatures will result in longer dry and recoat times.	
The products supported by this data sheet contain a maximum of 0 grams per liter VOC /VOS (0 lbs/gal.) excluding water & exempt solvents.	Dries By	N/A
Technical Assistance:	Viscosity	N/A
Available through your local authorized independent Lenmar dealer. For the location of the dealer nearest you, call 1-866-708-9180 or visit www.lenmar-coatings.com	Flash Point	4 °F (-15.6 °C)
	Gloss / Sheen	N/A
	Surface Temperature at Application	– Min. 68 °F – Max. 90 °F
	Thin With	See Application Section
	Clean Up Thinner	1A.101 Acetone
	Weight Per Gallon	6.72 – 6.75 lbs
	Storage Temperature	– Min. 50 °F – Max. 90 °F
	Volatile Organic Compounds (VOC)	
	0 Grams/Liter	0 Lbs./Gallon

QuickStain Dye Stains and Dye Concentrates 1U.60X

WARNING! If you scrape sand or remove old paint, you may release lead dust. **LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE.** Wear a NIOSH-approved respirator to control lead exposure. Carefully clean up with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

Application

Over properly prepared interior wood surfaces, apply only one even, lightly wet coat of Lenmar® QuickStain dyes stain by spray only. Stains may be achieved by adding 1-20% dye concentrate to the appropriate solvent, mixing and checking the color to assure accuracy. See characteristics for finish options and recommended dry times. Acetone and Lacquer thinner make the best solvents, but others may be used if desired. Check with technical service if questions arise. Dyes may be added to QuickStain Alkyd and Lacquer stains, and to solvent based sealers and topcoats to make tinted coatings. Ideal for toning and shading as well.

Specifications

Moisture content of wood should be no higher than 9%. Wood must be free of all surface contaminants. Using 150-grit sandpaper, sand with the grain and remove all dust. Thoroughly mix stain concentrates. Stains may be produced by adding concentrates to acetone or any approved lacquer thinner. Always test the color before proceeding. Color intensity may vary due to wood species, surface preparation and method of application. Read label and SDS for additional information and warnings.

Clean up

Clean up with 1A.101 Acetone.

Environmental Health & Safety Information

DANGER!

Causes serious eye irritation

May cause drowsiness or dizziness

Highly flammable liquid and vapor

Prevention: Wash face, hands and any exposed skin thoroughly after handling. Avoid breathing dust/fume/gas/mist/vapors/spray. Use only outdoors or in a well-ventilated area. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ ventilating/ lighting/ equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Wear protective gloves/protective clothing/eye protection/face protection. Keep cool

Response: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell. In case of fire: Use CO₂, dry chemical, or foam for extinction.

5.0 % of the mixture consists of ingredient(s) of unknown toxicity.

Storage: Store in a well-ventilated place. Keep container tightly closed. Store locked up.

Disposal: Dispose of contents/container to an approved waste disposal plant.

IMPORTANT: Designed to be mixed with other components. Mixture will have hazards of all components. Before opening packages, read all warning labels. Follow all precautions.
