TOUGH WALLS
ALKYD SEMI-GLOSS ENAMEL
23 LINE

Features
- Alkyd Semi-Gloss Enamel
- Scrubbable
- Resists Stains
- Tough, Durable Film

General Description
This Alkyd Semi-Gloss enamel is designed to give excellent service on interior surfaces that require frequent washing. It forms a tough, durable film that is ideal for coating kitchens, bathrooms, laundries, entryways or other high traffic areas. It is recommended for either residential or commercial application.

Recommended For
For drywall, plaster, wood, metal and masonry in residential, commercial and institutional applications. It can be scrubbed over and over without film damage. Ideal for kitchens, bathrooms, laundries, entryways or other high-traffic areas. Use on interior walls, woodwork and metal.

Limitations
- Apply only when surface and air temperatures are above 40 °F (4.4 °C).

Product Information

| Colors — Standard: | White |
|—— Tint Bases: | Pastel Base (32) |
| | Tint with Universal colorants only |

| Technical Data — White |
| Vehicle Type | Modified Soya Alkyd |
| Pigment Type | Titanium Dioxide |
| Volume Solids | 50.5 ± 1.0% |
| Coverage per Gallon at Recommended Film Thickness | 350 - 450 Sq. Ft. |
| Recommended Film Thickness — Wet | 3.6 to 4.6 mils |
| — Dry | 1.8 to 2.3 mils |

Depending on surface texture and porosity. Be sure to estimate the right amount of paint for the job. This will ensure color uniformity and minimize the disposal of excess paint.

Dry Time @ 77 °F (25 °C) @ 50% RH
- Tack Free 4 Hours
- To Recoat 8 Hours

High humidity and cool temperatures will result in longer dry, recoat and service times.

Available through your local authorized independent retailer. For the location of the retailer nearest you, call 1-866-708-9180, or visit www.coronadopaint.com
Surface Preparation

Surfaces to be painted must be clean, dry, and free of dirt, dust, grease, oil, soap, wax, scaling paint, water soluble materials and mildew. Remove any peeling or scaling paint, and sand these areas to feather edges smooth with adjacent surfaces. Glossy areas should be dulled. Drywall surfaces must be free of sanding dust. Spot prime before and after filling nail holes, cracks, and other surface imperfections.

New plaster or masonry surfaces must be allowed to cure (30 days) before applying base coat. Cured plaster should be hard, have a slight sheen and maximum pH of 10; soft, porous or powdery plaster indicates improper cure.

Primers: New surfaces should be fully primed. Previously painted surfaces should be primed or spot primed as necessary. There are a number of specialty primers available in our family of brands that can be used on difficult substrates such as bleeding woods, hard glossy surfaces, or other substrates where paint adhesion or stain blocking is a problem. Your dealer can recommend the right problem solving primer necessary to meet your needs.

WARNING! If you scrape, sand, or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Informational Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

Application

Stir thoroughly. Apply by brush (natural bristle), roller or spray. Length of roller nap depends upon the texture of the surface. Thinning is not recommended. Apply a full, even coat. Do not apply directly over chalky surfaces or bleeding stains. Apply only when surface and air temperatures are above 40 °F (4.4 °C).

Clean Up

Clean all tools and equipment with mineral spirits.

DANGER – Rags, steel wool or waste soaked with the product may spontaneously catch fire if improperly discarded. Immediately after use, place rags, steel wool or waste in a sealed water-filled metal container.

USE COMPLETELY OR DISPOSE OF PROPERLY.

This product contains organic solvents which may cause adverse effects to the environment if handled improperly. Emptied containers may retain product residue. Follow label warnings even after container is emptied. Residual vapors may explode on ignition.

Disposal of wastes containing either organic solvents or free-liquids in landfills is prohibited. Local disposal requirements vary; consult your sanitation department or state-designated environmental agency for local disposal options.

Environmental Health & Safety Information

DANGER!

COMBUSTIBLE LIQUID AND VAPOR. VAPOR HARMFUL

Contains: Petroleum Distillates, Methyl Ethyl Ketoxime

HARMFUL OR FATAL IF SWALLOWED. ASPIRATION HAZARD. CAUSES IRRITATION TO EYES, SKIN AND RESPIRATORY TRACT. MAY CAUSE ALLERGIC SKIN REACTION.

NOTICE: Repeated or prolonged exposure to organic solvents may lead to permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling vapors may be harmful or fatal.

Keep away from heat and flame. Use only with adequate ventilation. Do not breathe vapors, spray mist or sanding dust. Avoid contact with eyes and prolonged or repeated contact with skin. To avoid breathing vapors or spray mist open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headache or dizziness or if air monitoring demonstrates vapor levels are above the applicable limits, wear an appropriate, properly fitted respirator (NIOSH approved) during and after application. Follow respirator manufacturer’s directions for respirator use. Aspiration Hazard. Small amounts aspirated into the respiratory system may cause mild to severe pulmonary injury. Close container after each use. Wash thoroughly after handling.

![WARNING](https://www.epa.gov/cancer)

Cancer and Reproductive Harm– www.P65warnings.ca.gov

FIRST AID: If affected by inhalation of vapors or spray mist, remove to fresh air. In case of eye contact, flush immediately with plenty of water for at least 15 minutes and get medical attention immediately; for skin, wash thoroughly with soap and water. If symptoms persist, seek medical attention. If swallowed, do not induce vomiting. Get medical attention immediately.

IN CASE OF FIRE – Use foam, CO2, dry chemical or water fog.

SPILL – Absorb with inert material and dispose of as specified under "Clean Up".

KEEP OUT OF REACH OF CHILDREN

Refer to Safety Data Sheet for additional health and safety information.
