### Prime Lock Plus

**Alkyd Primer/Sealer**

**Primer PS-8000**

### Features
- Alkyd Primer/Sealer
- Penetrating Solvent Formula
- Seals All Surfaces
- High Hiding
- Excellent Enamel Holdout
- Excellent Adhesion
- Blocks Stains
- Fast Dry
- Recoat in 1 Hour

### General Description
Prime Lock Plus Primer/Sealer/Stain Blocker is a high hiding, alkyd resin based, primer-sealer-stain blocker for interior use and spot priming exterior surfaces. Excellent for priming over plaster, drywall, wood and previously painted or varnished surfaces. It can be top coated with any oil or latex paint. It provides excellent enamel holdout and will not raise wood grain. Use it as a primer prior to applying most wall coverings. It has excellent adhesion over glossy surfaces. It is effective for "bleed through" from fire and smoke damage, water stains, wood tannin, crayon, lipstick, ballpoint pen and felt pad inks. Severe water stains may require an additional coat of Prime Lock Plus before applying the finish coat. Pine knots should be spot primed with pure shellac prior to priming with Prime Lock Plus.

### Recommended For
- **Wood** – Seal burned or charred wood. Use as an enamel under-coater prior to latex or oil topcoats. One or more coats may be used to seal common bleeding type wood stains. **Drywall/Plaster:** Excellent as a primer for walls before painting or wallpapering. Lock in common household stains from food, grease and graffiti. **Glossy/Hard-to-coat surfaces:** Prime Lock™ Plus provides improved adhesion over difficult to paint surfaces such as glossy paint, Formica®, tile, Marlite, PVC and tile.

### Limitations
- Do not apply at temperatures below 7.2 °C (45 °F)
- Do not paint if surface temperature is within 5 degrees of the dew point.

Prime Lock Plus Alkyd Primer/Sealer Primer PS-8000

Surface Preparation
Surface to be painted must be clean and free of dirt, chalk, wax, grease, rust or loose, flaking paint. Dirt and chalk should be removed by scrubbing with warm soapy water and thoroughly rinsed with clean water. Wax should be removed with a commercial wax stripper or by solvent cleaning. Grease should be cleaned by using an oil and grease emulsifier or other surface prep degreaser. Rust must be removed by hand sanding vigorously or by conscientious power tool cleaning. Remove loose paint by scraping. Feather sand rough edges to insure a smooth finish coat. Remove sanding dust before paint application.

WARNING! If you scrape, sand, or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by logging onto Health Canada @ https://www.canada.ca/en/health-canada/services/environmental-workplace-health/environmental-contaminants/lead/lead-information-package-some-commonly-asked-questions-about-lead-human-health.html

Application
Stir product with a circular, lifting motion before you begin to paint. Prime Lock Plus may be applied by brush, roller, spray or pad applicator at up to 32.5 square meters per 3.79 L. This product is formulated to be applied without thinning. Do not thin if this would result in the product exceeding any VOC regulations in effect where it is being applied.

Do not apply Prime Lock Plus unless the surface, material and ambient temperatures are 7.2 °C (45 °F) or over. Do not paint if surface temperature is within 5 ° of the dew point.

Clean Up
Clean equipment with mineral spirits immediately after use.

Environmental Health & Safety Information
DANGER
FLAMMABLE
READ INSTRUCTIONS BEFORE USING
CONTENTS MAY CATCH FIRE
Do not smoke. Use only in a well-ventilated area. Keep away from flames, such as a pilot light, and any object that sparks, such as an electric motor. Materials such as rags used with this product may begin to burn by themselves.

After use, put rags in water or lay flat to dry, then discard.
Use only in a well ventilated area. Keep container closed when not in use. In case of spillage, absorb with inert material and dispose of in accordance with local regulations. Wash thoroughly after handling.

KEEP OUT OF REACH OF CHILDREN

Refer to Safety Data Sheet for additional health and safety information.
