ALKYD SHOP COAT METAL PRIMER V133

Features

- Dry to touch in 30 minutes, recoat in 2 hours
- May be top coated with hot solvent finish coats after 24 hour cure (normal dry conditions)
- Provides barrier protection in mild-to-moderate corrosive environments
- Suitable For Use In USDA Inspected Facilities

General Description

Alkyd Shop Coat Primer is a quick-drying formulation that can withstand mild-to-moderate atmospheric conditions. It provides a protective barrier and can be top coated with a variety of finishes and can also be used as a temporary coat for transporting fabricated pieces, which can then be blasted and recoated at the job site. In interior non-corrosive environments, Alkyd Shop Coat Primer can be left uncoated.

Recommended For

Alkyd Shop Coat Primer is formulated for use in mild to moderate atmospheric exposures, where a quick turn-around primer is desired. This primer provides barrier protection on properly prepared surfaces, and may be top-coated with a variety of finishes. Alkyd Shop Coat Primer is ideal as a temporary transport coat on fabricated pieces that will be blasted at the job site and recoated or as an economical barrier primer or left uncoated in interior noncorrosive environments.

Limitations

- Do not apply if material, substrate or ambient temperature is below 50 °F (10 °C) or if within 5° of Dew Point.
- Spray application only.
- Not intended for severe chemically corrosive environments, immersion service or non-ferrous metals.

Product Information

Colors — Standard:
Red (20), Gray (70)
Can be tinted with up to 2.0 fl. oz. of IM colorants per gallon

— Tint Bases:
N/A

Surface Preparation
All surfaces must be sound, dry, clean and free of oil, grease, dirt, mildew, mill scale, form release agents, curing compounds, loose and flaking paint and other surface contaminants.

NEW SURFACES:
Steel: For best results, abrassive blast to a commercial blast (SSPC-SP 6). For mild conditions, a hand or power tool cleaning (SSPC-SP 2) may be satisfactory, but performance is dependent upon the degree of surface preparation.

Previously Painted Surfaces: Wash and rinse any areas that may have oil or grease residue. Dull glossy surfaces by lightly sanding. Remove sanding dust. Remove loose paint. All areas that are rusting, blistering, cracking or peeling must be cleaned to bare metal.

WARNING! If you scrape, sand, or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead

Application
Mix the product thoroughly before application. The use of a drill mixer at low speed will best accomplish this. Spray application only.

Airless Spray: Tip range between .013 and .017. Total fluid output pressure at tip should not be less than 2200 psi.

Air Spray (Pressure Pot): DeVilbis MBC or JGA gun, with 704 or 765 air cap and Fluid Tip E.

If necessary, small areas can be brushed or rolled using a 3/8" lambs wool or 1/4" - 1/2" synthetic roller cover. Roll in one direction, rewet, then cross roll.

NOTE: Do not apply if material, substrate or ambient temperature is below 50°F (10°C). Relative humidity should be below 90%. Do not apply if material, substrate or ambient temperature is below 50°F (10°C). Relative humidity should be below 90%.

Clean Up
Clean up with Corotech® Xylene (V703) or Corotech® Brushing and Spray Reducer (V701) or Xylene.

Environmental Health & Safety Information

DANGER
Causes skin irritation
Causes serious eye irritation
May cause an allergic skin reaction
May cause cancer
Causes damage to organs through prolonged or repeated exposure
May be fatal if swallowed and enters airways
Flammable liquid and vapor

Prevention: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Wash face, hands and any exposed skin thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Do not breathe dust/fume/mist/vapors/spray. Do not eat, drink or smoke when using this product. Keep away from heat/sparks/open flames/hot surfaces, no smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting/equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Wear protective gloves/protective clothing/eye protection/face protection.

Response: If exposed or concerned get medical attention.

If in eyes rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical attention. If skin (or hair) take off immediately all contaminated clothing. Rinse skin with water. Wash contaminated clothing before reuse. If swallowed immediately call a POISON CENTER or physician. Do NOT induce vomiting. In case of fire use CO2, dry chemical, or foam for extinction.

Storage: Store locked up. Store in a well-ventilated place. Keep cool.

Disposal: Dispose of contents/container to an approved waste disposal plant.

DANGER - Rags, steel wool or waste soaked with this product may spontaneously catch fire if improperly discarded. Immediately after use, place rags, steel wool or waste in a sealed water-filled metal container.
