

# SUPER KOTE® 3000

## LATEX HIGH BUILD FLAT

### 904 LINE

#### Features

- Acrylic Latex Flat Paint
- Excellent Hide
- Excellent Touch Up
- Suitable for use in USDA inspected facilities

#### Recommended For

Professional grade paint for commercial and residential use on drywall, plaster, wood and masonry. Provides total hide in one coat and its flat finish lends to excellent touch-up in new construction and repaint work.

#### General Description

Super Kote® 3000 Latex Hi-Build Flat is designed to provide total hide in one coat when applied to properly prepared interior surfaces. The flat sheen lends itself to excellent touch-up. This product is an excellent choice for new construction as well as remedial work. Specifically formulated for professional spray application.

#### Limitations

- Apply only when surface and air temperatures are above 50 °F (10 °C).
- Not for use in high abuse areas.

## Super Kote® 3000 Latex High Build Flat 904 Line

### Surface Preparation

Surfaces to be painted must be clean, dry, and free of dirt, dust, grease, oil, soap, wax, peeling or flaking paint, water soluble materials and mildew. Remove any peeling or flaking paint, and sand these areas to feather edges smooth with adjacent surfaces. Glossy areas should be dulled. Drywall surfaces must be free of sanding dust. Spot prime before and after filling nail holes, cracks, and other surface imperfections.

New plaster or masonry surfaces must be allowed to cure (30 days) before applying base coat. Cured plaster should be hard, have a slight sheen and maximum pH of 10; soft, porous or powdery plaster indicates improper cure.

**Primers:** New surfaces should be fully primed. Previously painted surfaces should be primed or spot primed as necessary. There are a number of specialty primers available in our family of brands that can be used on difficult substrates such as bleeding woods, hard glossy surfaces, or other substrates where paint adhesion or stain blocking is a problem. Your dealer can recommend the right problem solving primer necessary to meet your needs.

**WARNING!** If you scrape, sand or remove old paint, you may release lead dust. **LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE.** Wear a NIOSH-approved respirator to control lead exposure. Carefully clean up with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to [www.epa.gov/lead](http://www.epa.gov/lead).

### Application

Stir product thoroughly with a circular, lifting motion ensuring even mixing throughout.

**Roller** – 3/8" to 1 ¼ " nap, depending on surface texture

**Brush** – Nylon or polyester filament

**Spray, Airless** – Fluid Pressure—1,500 to 2,000 PSI;

Tip — .019 - .021 Orifice.

### Clean Up

Clean up with warm, soapy water.

USE COMPLETELY OR DISPOSE OF PROPERLY. Dry empty containers may be recycled in a can recycling program. **Local disposal requirements vary; consult your sanitation department or state-designated environmental agency on disposal options.**

### Environmental Health & Safety Information

#### WARNING!

**Cancer Hazard.** Contains Crystalline Silica that can cause cancer when in respirable form (spray mist or sanding dust).

**Use only with adequate ventilation.** Do not breathe spray mist or sanding dust. Ensure fresh air entry during application and drying. Avoid contact with eyes and prolonged or repeated contact with skin. Avoid exposure to dust and spray mist by wearing a NIOSH approved respirator during application, sanding and clean up. Follow respirator manufacturer's directions for respirator use. Close container after each use. Wash thoroughly after handling.

**WARNING** Cancer and Reproductive Harm—  
[www.P65warnings.ca.gov](http://www.P65warnings.ca.gov)

**FIRST AID:** In case of eye contact, flush immediately with plenty of water for at least 15 minutes; for skin, wash thoroughly with soap and water. If symptoms persist, seek medical attention. If you experience difficulty breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical attention immediately.

**IN CASE OF SPILL** – Absorb with inert material and dispose of as specified under "CleanUp".

**KEEP OUT OF REACH OF CHILDREN  
PROTECT FROM FREEZING**

**Refer to Safety Data Sheet for  
additional health and safety information.**
